#### CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in title 16 sections 1647, 1676.

## SUBCHAPTER I—FINDINGS, PURPOSES. AND DEFINITIONS

# §3101. Purposes of agricultural research, extension, and education

The purposes of federally supported agricultural research, extension, and education are to-

- (1) enhance the competitiveness of the United States agriculture and food industry in an increasingly competitive world environ-
- (2) increase the long-term productivity of the United States agriculture and food industry while maintaining and enhancing the natural resource base on which rural America and the United States agricultural economy depend:
- (3) develop new uses and new products for agricultural commodities, such as alternative fuels, and develop new crops:
- (4) support agricultural research and extension to promote economic opportunity in rural communities and to meet the increasing demand for information and technology transfer throughout the United States agriculture industry;
- (5) improve risk management in the United States agriculture industry;
- (6) improve the safe production and processing of, and adding of value to, United States food and fiber resources using methods that maintain the balance between yield and environmental soundness:
- (7) support higher education in agriculture to give the next generation of Americans the knowledge, technology, and applications necessary to enhance the competitiveness of United States agriculture; and
